Carolina Gazette.
From MONDAY *September* 17th, to MONDAY *September* 24th, 1750.

ADMIRALTY-OFFICE, *May* 22, 1750.

Copy of a Letter from the Dey of Algiers to the Honourable Captain Auguſtus Keppel, Commander in Chief of his Majeſty's Ships in the Mediterranean, in Anſwer to one written by the ſaid Commander to his Highneſs, dated the 22d of January laſt at Gibraltar.

HAVING received your Letter by the Xebeque, I have to let you know in Anſwer, That one of our Frigates being on a Cruize met with five Engliſh Veſſels, whoſe Paſſes the Captain was dubious were not good; he put three or four Moors on board each Ship, in order to bring them to Algiers to be examined; and had taken a like Number of Engliſhmen out of ſaid Ships: That on his Arrival I immediately found the Captain in a very great Fault, which tended to embroil me with my chiefeſt and beſt Friends, wherefore I immediately ſent the People to the Conſul, and ſeized the Captain, and would have ſtrangled him, but for the Interceſſions of the Mufti, and principal People of my Court; but he never more ſhall ſerve me by Sea or Land, nor ever ſet his Foot more at the Marine; wherefore as we are the beſt and oldeſt Friends, I hope the King your Maſter will look upon this Accident as the Action of a Fool or Madman; and I ſhall take Care nothing of that Nature ſhall happen again, and that we may be better Friends than ever.

London, May 17. On Monday Night came on before the Lords Commiſſioners of Appeal, the Cauſe which has been ſo long depending between the Squadron of Ships under the Command of Sir Peter Warren, who were at the taking of Cape-Breton, concerning the Property of the Notre Dame de Deliverance, a French Eaſt-Indiaman valued at 300,000 l. which Ship was decoyed in by the Boſton Packet, after the Place was in the Hands of the Engliſh, but the Cauſe was not then determined, and 'tis thought will not be 'till the latter End of next Month.

Tueſday was determined in the Court of Chancery a Cauſe between Lord Baltimore and Mr. Penn, concerning the Limits of Pennſylvania, which was decreed in Favour of the latter, with Coſts of Suit.

This Morning died of a violent Fever, after a very few Days Illneſs, at his Houſe in Bloomſbury-Square, the Hon. Mr. Edward Clarke, one of the Barons of his Majeſty's Court of Exchequer.

This Morning died Sir Thomas Abney, one of the Judges of the Common-Pleas.

May 19. It is remarked, that Sir Daniel Lambert, Baron Clarke, Sir Thomas Abney, Mr. Cox, the Under-Sheriff, Mr. Sharpleſs the Clerk of the Papers, Counſellor Baird, Counſellor Otway, Deputy Hunt, Mr. Mallet the Linen Draper, and Mr. Taddy the Apothecary, all deceaſed, were at the laſt Seſſions at the Old Bailey, and ſuppoſed to have caught ſome Infection.

London, May 22. The Dutch Gazettes inform us, that the Regency of Great-Britain have ſent Orders to the Earl of Albemarle to declare to the French Court, that they highly diſapprove of the Conduct of the Governor of Nevis in firing upon the Galathea Frigate, if the Fact be really ſuch as is repreſented in the Complaint made by the Marquis de Mirepoix; but that in order to prevent the like Miſunderſtandings for the future, they have ſent freſh Orders to the Governors and Commanders of the Engliſh Settlements in America, as alſo to the Captains of Ships ſtationed there, to behave towards the French as one ought to do with Friends.—But when Tobago is to be evacuated they don't tell us.

Letters from Berlin take Notice, that they are as buſy in the Arſenal and Magazines, as if they were at the Eve of a War, which they ſay, muſt inevitably happen, on the Demiſe of the King of Sweden, if not ſooner.

May 26. The laſt Letters from Peterſburgh inform us, that the Conferences with the Foreign Miniſters have been reſumed; that the High Chancellor Beſtucheff had explained himſelf in very favourable Terms, with reſpect to the Differences that ſubſiſt at preſent, between the Courts of Peterſburgh and Stockholm, and that at the breaking up of an Aſſembly held on the 15th Inſtant, ſeveral Cabinet Couriers were diſpatched, who, it is reported, carried the Plan of Accommodation to ſeveral Courts in Alliance with that of Ruſſia.

We are well aſſured, that the Dutch Herring Fiſhery is ſo conſiderable, that there are at leaſt 30,000 Perſons employed in it.

We hear there are two Buſſes belonging to the Society, that will proceed to Shetland from the River this Year. The Gentlemen have with great Difficulty (notwithſtanding all the Meaſures taken to prevent them) procured a Buſs from Holland, upon the Model of which thoſe two are built; alſo thirty-two Perſons bred in the Dutch Service, who are thoroughly expert in all Parts of the White Herring Fiſhery, as well in the taking, as the curing the ſame. The Nets were made at Poplar, upon the Dutch Patterns; they are very curious, each Set (which is called a Fleet) being near a Mile in Length, and 48 Feet in Depth. There have been 2000 Hands employed in making the Nets for thoſe two Buſſes. There are eighteen Foreigners, expert in the Fiſhery, ſent down to Southampton, to go on board two Buſſes that are there fitting out for the Society, under the Care of Richard Tunton, Eſq; theſe Buſſes are to go to the Rendezvous in September, at Campbel Town, to fiſh on the North-Weſt ſide of Britain. We don't hear that any private Adventure will fit out this Year, moſt waiting to ſee the Event of the Experiment made by the Society's four Buſſes.

Our Correſpondents at Paris acquaint us, that by the Arrival of a Ship from the Iſland of Cayenne, they have Advice of a formidable Inſurrection of the Negroes in a neighbouring Colony, and of a great Spirit of Tumult and Sedition in ſeveral Parts of South America, the Particulars of which are not divulged. It is reported, that the Deſign of ſending a Squadron either to the Baltic or the Mediterranean, is laid aſide.

Notwithſtanding the Public has been ſo lately alarmed about the Behaviour of the Colliers, it is with Pleaſure we can aſſure our Readers, that by Wedneſday's Letters from Newcaſtle, there were laſt Week in the Harbour and Road near 300 Sail, moſt of them loaden, and ready to ſail, the firſt fair Wind, for London.

Yeſterday an Expreſs arrived from his Majeſty, with a Free Pardon for Capt. Clarke, upon which an Order was ſent from their Excellencies the Lords Juſtices to the Sheriffs of this City, to ſet him at Liberty, upon his giving Bail to appear and plead the ſaid Pardon: And Yeſterday Afternoon he was bailed by Charles Knowles, Eſq; Rear Admiral of the Red, and immediately diſcharged from his Confinement.

Yeſterday his Royal Highneſs the Prince of Wales, attended by ſeveral Perſons of Diſtinction, went down to Deptford to ſee a Man of War of 74 Guns launched. She is called the Switzer, is built upon the old Model, and ſaid to be as fine a Ship as any in the Navy.

May 29. They tell us from Venice, that upon the Repreſentations made to the Government, that conſiderable Sums were carried out of the State, by the great Number of Subjects of the Republick travelling to Rome on Occaſion of the preſent Jubilee; the Senate after mature Deliberation, finding that the real temporal Damage, over-balances the Spiritual Benefits, whether real or imaginary, has iſſued a Decree, expreſly forbidding their Pilgrimage to Rome.

On Sunday Morning the Pelham Buſs, and her Tender, and the Diſpatch Sloop, ſailed from their Moorings at Ratcliff Croſs, with a fair Wind for Shetland, and were followed the ſame Evening by

the Carteret Buſs, and her Tender is to follow To morrow; they are amply provided with every Thing requiſite, and extremely well manned, both with Seamen and expert Fiſhermen.

A Patent has paſſed the Great Seal unto George Adams and Richard Jack, of their new Invention of an Inſtrument, or Quadrant, for taking the Altitude of the Sun or Moon by Sea or Land, more eſpecially at Sea, by Refraction; and alſo of a Refracting Telleſcope, of a new Conſtitution, conſiſting of four ſpecial Lenſes.

London, June 5. One Day laſt Week a Duel was fought near the Hot Wells Briſtol, between a Chaplain and a Midſhipman belonging to the Royal Navy, when the latter was ſhot in the Temples; but there was ſome Hopes of his Recovery.

An Extract of a Letter from the Hague, dated June 3.

The Fleet which the French are fitting out is a very powerful one, but we can ſcarcely believe that it is to be ſent to the Baltick, as has been reported, but rather look upon it as intended to protect their Trade Whatever Pretences are made uſe of to cover the real Deſign of this Fleet, ſeveral are of Opinion, that the principal View of the Court of France is, to fit out inſenſibly ſuch a Number of Men of War, as may enable her to act at all Times in ſuch Manner as the Circumſtances of Affairs may require.

Edinburgh, May 29. His Majeſty has been pleaſed to grant Simon Fraſer, Eſq; eldeſt lawful Son of the deceas'd Simon Lord Lovat, a full and free Pardon and Remiſſion on Account of his Acceſſion to the late unnatural Rebellion.

Dublin, June 2. Yeſterday Col. Laſcelle's Regiment of Foot embarqued on board the Tranſports for Nova Scotia. The Officers took ſeveral ſorts of Graſs and Garden Seeds, with Bulls, Cows, Calves, Rams, Ewes, Lambs, Goats, Horſes, Mares, Variety of Poultry, Grain of all Kinds, Plows, Harrows, Spades, Pickaxes, Shovels, Saws, Cannon, Fire arms of all Sorts, Powder and Ball, and all Things neceſſary for Life as well as Defence; which, it is not doubted, will be very uſeful in that new Settlement, where many People of low Fortune may riſe to oppulent Circumſtances, by Care and Induſtry, and in Time make that a happy and flouriſhing Country.

Peterſburgh, May 21 The Empreſs's Fleet, conſiſting of 25 Ships of the Line, and Frigates, will put to Sea in a few Days, in order to exerciſe the Sailors.

Stockholm, May 27. The Royal Fleet conſiſting actually of 115 Veſſels, whereof 12 are Ships of the Line of Battle, 8 Frigates, and 30 Gallies, is in the beſt Order imaginable, and may be put to Sea at a few Hours warning. A Courier is juſt diſpatched to our General in Finland, but the Nature of the Orders he carries does not tranſpire in Publick.

Hanover, June 5. A Council of State was lately held at Herenhauſen, which laſted three Hours, and immediately after it was over Couriers were diſpatched to ſeveral Courts. It appears that the moſt perfect Harmony reigns among the foreign Miniſters reſident here. The Marquis de Valori is well received at Court, and a general Opinion prevails, that all Diſputes in the North will be amicably compromiſed. His Pruſſian Majeſty is ſafely arrived at Bartenſtein, in his Way to the Camp at Wehlau, and at his Return, it is thought will go into Heſſia.

Baron Klinggraff Envoy Extraordinary from the King of Pruſſia, was Yeſterday in Conference with the Duke of Newcaſtle, Secretary of State, on Account of ſome Diſpatches from his Court, which he found here on his Arrival from London; and had afterwards a private Audience of the King on the Subject.

Madrid, April 28. According to the laſt Letters from the Caraccas, M. d'Arriaga is treated there with abundance of Civility and Reſpect, and the Inhabitants alſo behave very kindly to the Troops under his Command: But he cannot undertake any Thing in Favour of the Guipuſcoa Company; becauſe the firſt Attempt of that Nature would make him loſe all the Reſpect paid him; and beſides he does not know how to deal with about 20,000 Men well arm'd, when his own Force ſcarcely amounts to 1500. The People of the Colony ſtill aſſure him of their unfeigned Reſpect and Loyalty to the King, but they will not hear a Word about reſtoring the Guipuſcoa Company.

Hague, May 29. A Draught is ordered to be made of one Man per Company, and one Serjeant and one Corporal per Battalion, of all the national Troops in the Service of the States General. This Detachment is to be ſent to Surinam, in order to ſuppreſs an Inſurrection which their High Mightineſſes have been informed has happened among the Negroes in that Colony, and in which one of the moſt conſiderable Plantations has been ravaged, and all the white People belonging to it murthered. Beſides that Draught, which 'tis computed will amount to about 800 Men, the Proprietors are to ſend over a Body of 100 Men at their own Expence, and all the Half Pay Officers, who are willing to go over with thoſe Troops, are immediately to be put upon full Pay. It is now ſaid that the Prince Stadtholder's Journey to Zealand, which has been talked of for ſome time, will certainly take Place in about three Weeks, when the States of that Province are to re aſſemble.
